

Foundation Degree Structure

Full-time learners will study their Foundation Degree course for **2 years**.

Each 16-week semester contains a mixture of **online** and **in-person** learning.

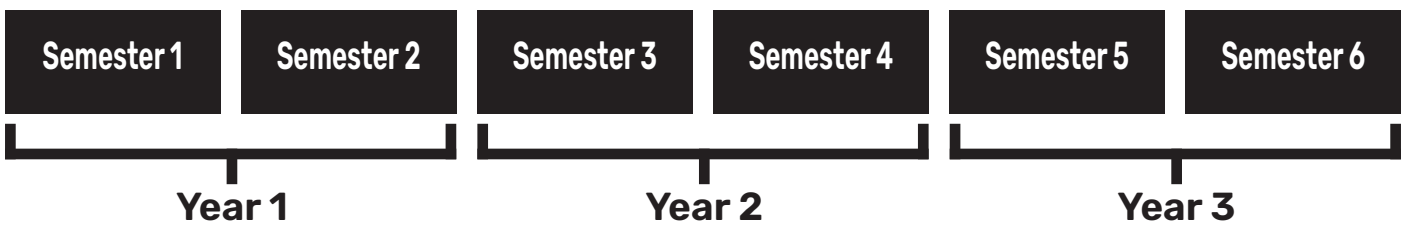

➤ **Online lectures** and **virtual labs** can be accessed digitally after they have taken place, giving you the flexibility to gain your qualification in your own time.

In-person learning primarily takes place at the National College for Nuclear in Workington and consists of **practical work**, **lab work** and **seminars**.

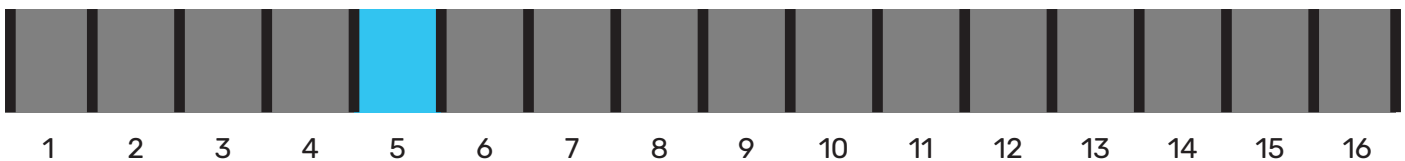

If you are not based near the college, we can support you with sourcing accommodation for **in-person** learning weeks - **contact us for details**.
